WOOD REINVENTED

TRUE TEXTURE

## TECHNOLOGY TRUE TEXTURE BY ZEETREE

### INKJET TEXTURING WITH AN UNBEATABLE SHARPNESS

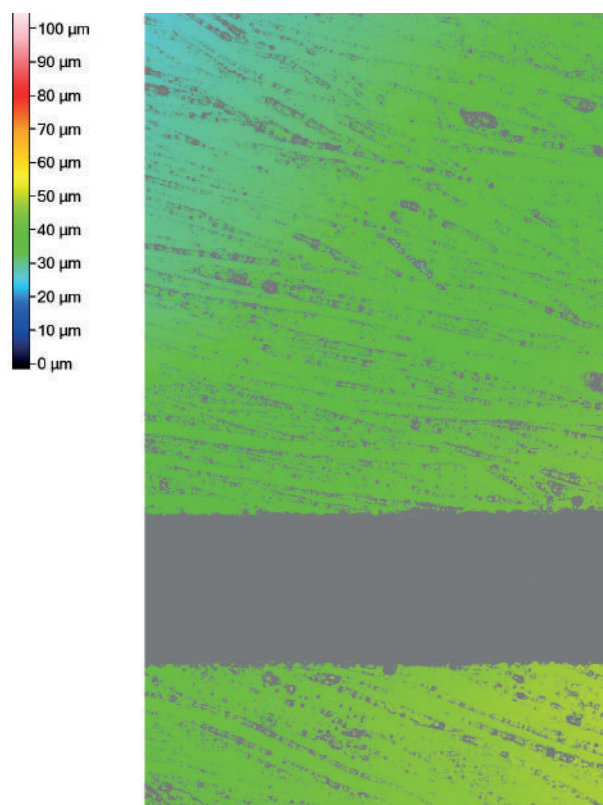

With the new technology TRUE TEXTURE by ZEETREE you can give your 3D textured surface an unbeatable sharpness and reinvent wood to the next level. Brushed parquet floor is one among many other application examples where this technology gives your surface an almost real visual and haptic wooden touch.

The texture is digitally printed into the wear layer. Texture and wear layer are cured.

The printed texture is softer than the wear layer. The texture is removed by mechanical means.

The final result is a surface with unbeatable sharpness.

## TEKNOS IN FOCUS

We are a global coatings company. We offer a wide range of paints and coatings for the manufacturing industry, building professionals, and consumers.

We strive, in every possible way, to help our customers find the ideal solution for their particular purposes. Utilising thorough research as well as feedback from various market areas, we continuously develop our product range to ensure the best possible customer satisfaction. Combined with our extensive knowledge and history of providing industry-leading quality for decades, we are confident in our product range's ability to solve any coating challenge, in any specific situation. We have a strong focus on environmental issues to ensure we meet, and even exceed, the diverse needs of today.

Teknos was established in 1948 and is one of Finland's largest family-owned businesses. It is headed by CEO Paula Salastie, who currently represents the third generation of the Kiikka family. Industry-driven product quality, uncontested heritage, and committed people have helped us to grow from a small henhouse in Tuomarila, Espoo into a global coatings company with operations in more than 20 countries in Europe, Asia, and the USA, employing approximately 1,800 people globally.

We are on our mission to make the world last longer by providing smart, sustainable coating solutions to protect and prolong.
